**Subject:** duke Enery Rate Increase Request

We are writing to request that the rate increase that Duke Energy has requested be denied. We understand that they are a for profit company and have to please their shareholders but it seems to us that the profit they reported should be sufficient in these economic times. Please consider those of us who are on fixed incomes . The repeated increases in our electric bill are difficult to absorb . We are prepared to give up luxuries and do practice conservation but it is hard to know how to handle repeated increases in necessities such as utilities. We hope you will not grant them any increase in light of the fact they have had two increases in very recent years. We are thankful we have a commission to appeal to and will be hopeful that there will be a good result for us. JoAnn and Rocky Robinson 301 Indian Trail, Taylors , South Carolina 29687
